Description: The Defense Threat Reduction Agency's (DTRA) mission is to safeguard United States' interests from weapons of mass destruction (WMD) (chemical, biological, radiological, nuclear, and high explosives) by controlling and reducing the threat and providing quality tools and services to the warfighter. The objective of this acquisition is to acquire Advisory and Assistance Services (A&AS) for Operations, Readiness and Exercises Directorate (J3/7) and the Nuclear Enterprise Support Directorate (J10) (herein referred to as J3/7 & J10). These organizations require dedicated support in order to obtain expertise in the highly specialized disciplines associated with Chemical, Biological, Radiological, Nuclear, and Explosives (CBRNE), and to achieve the necessary focus on the unique program requirements associated with these disciplines. Specifically, support is required to synthesize, coordinate, and integrate scientific, technical, programmatic and analytic efforts across the organizations and external Government agencies, National Laboratories, academia, and Industry. Mission sets include:

- Providing strategic planning and programming;
- Operational and technical support in developing, instructing and maintaining courses/curriculum;
- Providing support in combating WMD and CBRNE research, training, education, and consequence management;

- Support efforts to integrate training with other Government offices, universities and the national laboratories, partner nations;
- Ability to rapidly deploy worldwide, 24/7 to support combatant commands and joint task forces through on-site operational advice, training, exercises, and reachback;
- Provide acquisition and administrative support;
- Develop and execute exercises as part of the Joint Event Life Cycle (JELC) process;
- Plan for, and execute, full-scale exercises, tabletop exercises, workshops, seminars, meetings and conferences specific to nuclear weapon;

Scope and Time Frame: The estimated period of performance for the contract(s) . is 5 years with an estimated rough order of magnitude of \$490,000,000. Work will principally be performed at the Defense Threat Reduction Center (DTRC) at FT Belvoir, VA or Kirtland AFB NM. Travel will be required for work performed on this contract to include other US Government and partner nation's facilities worldwide. The Governments estimate number of full time equivalents ranges between 80 and 110 over the expected life of the contract(s).
